

NAC has conducted anti-corruption trainings as part of awareness-raising campaigns in several localities

Officers of the Anti-corruption Education Directorate of the National Anti-corruption Centre (NAC) have conducted several trainings this week as part of the national campaign “I Decide with Integrity – I Vote with Accountability” in the Dondușeni and Cimișlia districts. The NAC experts met with mayors and representatives of local authorities, directors of educational institutions, as well as heads of local services and talked about voter corruption, combating electoral fraud and mechanisms for reporting corruption cases. The campaign aims to promote transparency and accountability in the electoral process in the Republic of Moldova.

The “Integrity for Health” campaign, carried out in partnership with the Ministry of Health (MH)-CNAS-AO HOMECARE, was also continued. The trainings brought together the managers of medical institutions and the medical staff from the Cimișlia District Hospital and the Dondușeni District Hospital.

During the reference period, the NAC officers also gave anti-corruption lectures for the employees of the Chișinău Court, as well as for the officers of the command corps of the National Penitentiary Administration. The meetings addressed measures to ensure institutional integrity, strengthen the climate of institutional and professional integrity, but also increase the degree of responsibility in the process of performing work activities.

We remind that the purpose of the activities carried out by the NAC officers on the corruption prevention component are oriented towards cultivating and strengthening the climate of institutional integrity, by promoting anti-corruption and integrity policies.
